

SHUBHAJIT ROY

+91-7908043746 royshubhajit@iitgn.ac.in Shubhajit Roy Roy-Shubhajit

Education

Indian Institute of Technology Gandhinagar

Ph.D in Computer Science and Engineering

CPI - 9.07

July 2022 – Present

Gandhinagar, India

Indian Association for the Cultivation of Science

M.Sc in Mathematics and Computing with Major in Computer Science

CGPA - 8.42

October 2020 – July 2022

Kolkata, India

Presidency University

B.Sc in Mathematics

CGPA - 6.95

June 2017 – August 2020

Kolkata, India

Army Public School

All India Senior School Certificate Examination[CBSE], Std-XII

Percentage of Marks - 85%

June 2014 – May 2016

Barrackpore, India

St. Stephen's School

Indian Certificate of Secondary Education[CISCE Board], Std-X

Percentage of Marks - 81%

May. 2014

Dum Dum, India

Publications

- “Improving Expressivity of Graph Neural Networks using Localization.” ArXiv (2023). Anant Kumar, Shrutimoy Das, Shubhajit Roy, Binita Maity and Anirban Dasgupta.
- “FIT-GNN: Faster Inference Time for GNNs Using Coarsening” ArXiv (2024). Shubhajit Roy, Hrriday Ruparel, Kishan Ved and Anirban Dasgupta.

Projects

Graph Neural Network for weather data prediction

Prof. Anirban Dasgupta

February 2023 - Present

- Given a set of locations as nodes and edges between, our task is to predict different weather stats based on past information.
- We propose to use GNNs in this streaming fashion and still overcome the current problems faced while learning from streaming graphs.
- One major problem tackled is the catastrophic forgetting problem, where the GNN model tends to forget past patterns in the graphs. Another problem faced is the memory consumption of these models.

Joint Entity Recognition and Relation extraction

Dr. Partha Basuchowdhuri

September 2021 - Present

- Given a sentence, we need to find the entities in the sentences and the relation between these entities. This task helps us in the construction of a Knowledge Graph where the nodes are the entities, and the edges between these nodes have the corresponding relation.
- In our proposed model, we intend to use GNNs to extract the dependencies between the words in a sentence and then predict the entities and relations.

Study of Social Network using GNN

Prof. Anirban Dasgupta

September 2022 - November 2022

- Using GNNs to predict different social network properties such as average node degree, clusters, average path length, etc.
- Understanding how node and edge addition along with deleting alter the graph structure and compare with existing models.

MedEx - A Software for an Pharmacy database

Prof. Paramartha Dutta

June 2021 - July 2021

- Implemented the SRS and the prototype code for transaction management of an online pharmaceutical database.
- The software helps the customer of the wholesaler to open an account and do all the transactions in a digital method. It includes facilities like credit payment, seeing transaction history, etc.
- Done along with Sarthak Das and Avishek Lahiri as a part of the IACS Computer Science Unit 2020 batch.

March 2021 - August 2021

- A tool for verification of ReLU neural network (for example, Acas-Xu) properties.
- The tool uses SCIP for optimizing and finding the bound with respect to the neural network and z3 for checking satisfiable conditions.
- Done along with Sarthak Das and Avishek Lahiri as a part of the IACS Computer Science Unit 2020 batch.

Roles and Responsibilities

Teaching Assistant - Scalable Data Science	July 2025 - September 2025
Indian Institute of Technology Gandhinagar, India	
Tutorial - Graph Neural Networks: Hands On	June 2025
Indian Institute of Technology Gandhinagar, India	
Teaching Assistant - Introduction to Data Science	January 2025 - Present
Indian Institute of Technology Gandhinagar, India	
Ethics Reviewer - NeurIPS 2024	August 2024
Ethics Reviewer - NeurIPS 2023	July 2023
Volunteer - Foundations of Software Technology and Theoretical Computer Science	December 2024
Indian Institute of Technology Gandhinagar, India	
Volunteer - Randomized Methods For Approximation And Parameterized Algorithms	December 2022
Indian Institute of Technology Gandhinagar, India	
Volunteer - Indian Symposium on Machine Learning	December 2022
Indian Institute of Technology Gandhinagar, India	
Teaching Assistant - Introduction to Data Science	January 2023 - May 2023
Indian Institute of Technology Gandhinagar, India	
Teaching Assistant - Ordinary and partial differential equations	August 2022 - November 2022
Indian Institute of Technology Gandhinagar, India	

Relevant Coursework

- | | | |
|-------------------------------|------------------------|---------------------------------------|
| • Social and Complex Networks | • Optimisation in ML | • Understanding Large Language Models |
| • Machine Learning | • GNN and Transformers | |

Events Attended

Neuroscience, Data Science and Dynamics	April 2025
International Institute of Information Technology Bangalore, India	
Indian Symposium on Machine Learning	December 2024
BITS Pilani Goa Campus, India	
Pingala Interactions in Computing 2024	February 2024
Infosys Ltd Mysore, India	
CODS-COMAD 2024	January 2024
International Institute of Information Technology Bangalore, India	
Indian Symposium on Machine Learning	December 2023
Indian Institute of Technology Bombay, India	
Data Science: Probabilistic and Optimization Methods	July 2023
International Center of Theoretical Sciences, Bangalore, India	

Technical Skills

Languages: Python, Java, C, C++, R, SQL, Shell, \LaTeX
Technologies/Frameworks: PyTorch, TensorFlow, GitHub
Communicating Language: English, Hindi, Bengali

Certificate and online Courses

Introduction to IoT

August 2020

Cisco Networking Academy

- Learned how the current digital transformation is creating unprecedented economic opportunity. Understood how the IoT is bridging the gap between operational and information technology systems. Discovered how standard business processes are being transformed.

Elements of AI

June 2020

University of Helsinki

- It provides a gentle introduction to the basics that enables us to understand what is possible, and what isn't, and to recognise how AI is affecting our lives.
- We can define and discuss AI, be critical about AI-related claims, explain the underlying technologies including machine learning and neural networks and understand the major implications of AI.

Awards and Achievements

UGC-NET 2022

November 2022

NTA UCG

- Qualified for JRF & Assistant Professor

GATE 2022

March 2022

Hacktoberfest 2022

October 2022

Github and Digital Ocean

- Successfully completed Hacktoberfest, 2022, by contributing in public Github repository.

Hacktoberfest 2021

October 2021

Github and Digital Ocean

- Successfully completed Hacktoberfest, 2021, by contributing in public Github repository.
- Four pull requests were accepted by a public Github repository -  Cosmos

Digital Wellness Online Challenge 2015

July 2015

National e-governance Division
